

Lucas Rossoni Dieder

Backend Software Engineer | Java | Spring Boot | Oracle Cloud | SQL

Jardim Paulista - São Paulo - SP - Brazil | lucas.rossonidd@gmail.com | +55 11 97792-3704 | [LinkedIn](#) | [GitHub](#) | [Portfólio](#)

Professional Summary

Software Engineer focused on Java and Spring Boot, developing REST APIs, modeling services, and implementing business rules. Experienced in data persistence with relational databases (PostgreSQL, MySQL, and Oracle), version control with Git/Git Flow, and applying best practices such as SOLID and Clean Code. Knowledgeable in Oracle Cloud Infrastructure (OCI), Docker, and layered architecture, with a strong interest in microservices, cloud computing, and continuous backend systems evolution.

Technical Skills

Main Stack: Java, Spring Boot, REST APIs, SQL

Additional Knowledge: Python, FastAPI, React, Quarkus, .NET

Databases & Cloud: PostgreSQL, MySQL, Oracle Database, AWS, Azure, OCI

Architecture & Practices: SOLID, Clean Code, MVC, Layered Architecture

Tools: Git/Git Flow, Docker, Maven, Gradle, JPA/Hibernate, Spring Security, JWT, Swagger

Professional Experience

Backend Developer (Freelancer) — COM Inovação e Biotecnologia Aplicada LTDA (Apr — Nov 2025)

- Developed scalable backend services in Python for real-time industrial sensor data collection and processing
- Implemented predictive analysis and anomaly detection algorithms on operational data
- Integrated industrial sensors for continuous and reliable data ingestion
- Developed the core application in Java using a REST API-based architecture, alongside dynamic React dashboards

Software Developer (Freelancer) — Céu de Lavanda (Aug — Sep 2025)

- Developed a robust REST API for automated payment processing and comprehensive customer management
- Modeled and integrated relational databases to ensure data integrity
- Implemented data validation and secure client-server communication protocols

Education

Systems Analysis and Development: FIAP (Expected 2027)

Projects

Hospital das Clínicas – Patient Support SPA (2025): Developed a REST API using FastAPI for CRUD operations and data management, Implemented complex business rules and data validations, Integrated seamlessly with Oracle Database

ForumHub API (2025): Developed a robust Java REST API utilizing the Spring Boot framework, Implemented secure authentication using Spring Security and JWT tokens, Handled data persistence with JPA/Hibernate and robust database versioning with Flyway

Certifications

- Oracle Cloud Infrastructure 2025 Certified Foundations Associate

Languages

Portuguese: Native

English: Intermediate (Advanced Technical Reading)
